-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Group I claims 1-24 in the reply filed on 11/7/05 is acknowledged. The traversal is on the ground(s) that the restriction is improper. This is not found persuasive because the restriction showed the differences in the inventions and classification. A plain knife is different from a multi tool.

The requirement is still deemed proper and is therefore made **FINAL**.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-2, 12, 17-20, 22, and 24 are rejected under 35 U.S.C. 102(b) as being anticipated by Poehlmann (3942249).

Poehlmann disclose a knife having a handle (7), a rotatable blade (41), a blade lock (9), at least one blade rotation member (21), a cam (48) one cam shoulder being (52) and another open slot (the space next to (52)).

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 3723

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 21 and 23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Poehlmann (3942249).

a. Poehlmann discloses knurling which as a matter of obvious design choice could be have spaced though holes to aid with gripping since a recess which is a part of knurling and a hole both provide essential the same advantage.

b. Poehlmann discloses the claimed invention except for glass reinforced polymeric material for a handle. It would have been obvious to one having ordinary skill in the art at the time the invention was made to have made the handle out of a glass reinforced polymeric material, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice.

In re Leshin, 125 USPQ 416.

Allowable Subject Matter

6. Claims 3-11 and 13-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Collins discloses a device.
